BL Training Ltd is an award-winning training organisation based in Newcastle, Darlington, and Stockton. We provide bespoke and customised training solutions for businesses and individuals throughout the U.K. We recognise that our activities on the environment through its routine internal operations and through its influence and effects on learners, staff, and the wider community.

**We believe that our activities should be managed to drive efficient resource use and protect the environment. We will endeavour to improve our performance by setting regularly reviewed environmental objectives and targets in line with the following commitments:**

- Comply with all relevant environmental legislation and other requirements
- The prevention of pollution to air, water, and land
- Encourage sustainable consumption associated with our activities to minimise unnecessary waste of electricity, fuel, and materials.
- Review our scheme of work to influence learners, our major stakeholders, to participate in BL Training's environmental ethos.

This document is communicated to all employees and relevant parties and is made available to the public. It is the responsibility of everybody at BL Training Ltd to ensure that the policy is applied at all times.
